

Table of elevation and water depth data. The table is organized into a grid with columns representing different locations or points. The data is presented in a structured format, with numerical values for elevation and water depth. The table includes a legend in the top right corner defining the data series: '上段: 浸水深(m)' (Upper section: Water depth in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground elevation (T.P.m)]). The table contains a large amount of numerical data, organized into a grid with columns representing different locations or points. The data is presented in a structured format, with numerical values for elevation and water depth. The table includes a legend in the top right corner defining the data series: '上段: 浸水深(m)' (Upper section: Water depth in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground elevation (T.P.m)]).
