

Table with 100 columns and 100 rows of numerical data. The table is organized into a grid with a header row and a header column. The header row contains numbers 1 through 100. The header column contains numbers 1 through 100. The main body of the table contains numerical values, likely representing elevation or depth data. The table is divided into two main sections: '上段: 浸水段(m)' (Upper section: water-saturated section in meters) and '下段: [地盤高(T.P.M)]' (Lower section: [ground level (T.P.M)]). The data values are arranged in a regular grid pattern, with some cells containing specific values like 1.11, 1.12, etc., and others containing larger numbers like 100, 101, etc.

凡例
上段:
浸水段(m)

2.11
[12.61]

下段:
[地盤高(T.P.M)]
