

Table with 100 columns and 100 rows of numerical data. The table is organized into four quadrants by a central vertical line. The top-right quadrant contains a diagram of a rectangular structure with labels '上段: 浸水深(m)' and '下段: [地盤高(T.P.m)]'. The diagram shows a cross-section of a structure with a water level and a ground level. The table contains numerical values for each cell, likely representing data points for a simulation or analysis.

凡例
上段: 浸水深(m)
下段: [地盤高(T.P.m)]
