

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水深(m)' (Upper section: Water depth in m) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground level (T.P.m)]). The data consists of a grid of numbers, likely representing elevation or depth measurements at various points.

凡例
上段: 浸水深(m)
下段: [地盤高(T.P.m)]
