

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水深(m)' (Upper section: Water depth in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground level (T.P.m)]). Each cell contains a numerical value representing depth or elevation data.

凡例  
上段: 浸水深(m)  
下段: [地盤高(T.P.m)]

2.11  
[12.61]

下段: [地盤高(T.P.m)]
