

Table with 25 columns and 13 rows of numerical data. The table is organized into two main sections: '上段: 浸水深(m)' (Upper section: Water depth in m) and '下段: [地盤高(T.P.M)]' (Lower section: [Ground level (T.P.M)]). The data consists of a grid of numbers, with some cells containing larger values like '2.11' and '[12.61]'. The table is bordered by a grid of small numbers, likely representing a coordinate system or grid indices.

凡例  
上段: 浸水深(m)  
2.11  
[12.61]  
下段: [地盤高(T.P.M)]
