

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水段(m)' (Upper section: water immersion segment in meters) and '下段: [地盤高(T.P.M)]' (Lower section: [ground level (T.P.M)]). The data consists of a grid of numbers, likely representing elevation or depth measurements at various points.

凡例
上段: 浸水段(m)
下段: [地盤高(T.P.M)]

2.11 [12.61]

[地盤高(T.P.M)]

0 25 50 75 100 m
