

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水深(m)' (Upper section: Water depth in meters) and '下段: 下盤高(T.P.M)' (Lower section: Lower plate height in T.P.M). Each cell contains a numerical value, often with a small number in parentheses below it. The values range from approximately 0.00 to 1.00. The table is divided into four quadrants by a vertical line at column 50 and a horizontal line at row 50.

凡例  
上段: 浸水深(m)  
2.11  
[12.61]

下段: 下盤高(T.P.M)
